---

I am currently pursuing a PhD at the University of Amsterdam, focusing on **interpretability** of large language models through **geometric analysis** of their internal representations. My interdisciplinary background began with **competitive programming**, expanded through developing machine learning models as a **surveillance analyst** at Goldman Sachs, and was further enriched during my master's studies in **theoretical physics**. This diverse background has enabled me to learn new concepts and adapt to new domains relatively easily, providing me with a distinctive perspective for bridging computational and theoretical approaches to scientific research.

## Education

---

**University of Amsterdam** **Amsterdam, Netherlands**  
*PhD in Physics, Expected: December 31, 2025* *2021–2025*  
**Thesis:** From Language Models to Cosmic Structures: A Geometric Perspective  
**Advisor:** Dr. Jan Pieter van der Schaar

**University of Amsterdam** **Amsterdam, Netherlands**  
*MSc in Physics and Astronomy (Theoretical Physics), cum laude* *2019–2021*  
**Thesis:** Exploring the Spectral Theory/Topological Strings duality  
**Advisor:** Dr. Marcel Vonk  
**GPA:** 8.7/10

**Indian Institute of Technology Madras** **Chennai, India**  
*B.Tech in Engineering Physics* *2013–2017*  
**Thesis:** Real Space Renormalization and Applications to Machine Learning  
**Advisor:** Dr. Ashwin Joy  
**GPA:** 8.29/10

## Research Experience

---

**Probing Geometry of Next Token Prediction Using Cumulant Expansion of Softmax Entropy**  
**Karthik Viswanathan**, Sang Eon Park  
*ICML 2025: Workshop on High-dimensional Learning Dynamics*

**Persistent Topological Features in Large Language Models**  
Yuri Gardinazzi\*, **Karthik Viswanathan\***, Giada Panerai, Alessio Ansuini, Alberto Cazzaniga, Matteo Biagetti  
*Proceedings of the 42nd International Conference on Machine Learning* *\*Equal contribution*

**The Geometry of Tokens in Internal Representations of Large Language Models**  
**Karthik Viswanathan**, Yuri Gardinazzi, Giada Panerai, Alberto Cazzaniga, Matteo Biagetti  
*Under review*

**Cosmology with persistent homology: A Fisher forecast**  
Jacky Yip, Matteo Biagetti, Alex Cole, **Karthik Viswanathan**, Gary Shiu  
*Journal of Cosmology and Astroparticle Physics (JCAP), Vol. 2024, Issue 09*

**Workshop: Interpretability in LLMs using Geometric and Statistical methods**  
**Karthik Viswanathan**, Jan Pieter van der Schaar  
*Organized a two-day workshop with around 40 participants from Amsterdam and AREA Science Park (Trieste).*

## Professional Experience

## Technical Skills

---

**Programming:** PyTorch, TensorFlow, Hadoop, MapReduce, Mathematica  
**HPC Resources:** LUMI consortium, Snellius supercomputer

## Teaching

---

**University of Amsterdam**

*Teaching Assistant*

**Courses:** Topological Data Analysis: a Physics Perspective, Advanced Cosmology, ML for Physics and Astronomy, QFT in Curved Spacetimes, General Relativity

**MSc Physics Program**

*2020–2024*

## Research Visits

---

**2024: AREA Science Park**, Trieste, Italy

September 16 – October 4

**2024: AREA Science Park**, Trieste, Italy

February 15 – April 27
